

PIOTR

Warsaw DJ. Co-founder of the RAW:N Frequency collective.

He plays techno, trance, and PSY-trance, liquid, and minimal D'n'B; he often reaches for raw and hypnotic techno, as well as deep and progressive house sounds, but also enjoys harder sounds. In his sets, he mixes fresh productions with gems from the Berlin scene of the 1990s and 2000s, as well as less obvious releases. He doesn't shy away from new music, also exploring the nooks and crannies of record label releases, especially in vinyl editions.

Each set is a story. Sometimes confined to a single genre, delivered slowly, with attention to every transition and tension building. Other times, it's a journey through several worlds: from hypnotic, raw techno, through melodic liquid and jungle, to party-oriented PSY-trance and schranz. In both cases, the same thing counts: energy, flow, and a story that the listener feels from start to finish.

He enjoys juxtaposing popular tracks with material from niche producers. Big hits sit alongside unusual finds. Well-known tracks sit alongside the forgotten.

He has played at clubs such as Jasna 1, Smolna 38, Prozak 2.0, Willa w Parku, Luzztro, Pretzel, P29, and Noce KRK.

His club sets and original mixes are available on SoundCloud.
